To whom it may concern

It is my very great pleasure to supply this letter of recommendation on behalf of Mühlemann + Partner, Architekten + Planer GmbH. They have been key in our success to build a complete new manufacturing plant, in Neuchatel, in less than one year, with a tight cost control process showing a 5% cost savings actual to budget

Mathias Mühlemann and his entire crew are vibrant, collegial, and valued members to propose solutions and make things happen using a unique and simple methodology for driving project execution

I find myself very impressed with the level of details they take into account, follow-up and turn into concrete actions; that made the difference for our success. Additionally, the communication was very nice and professional, simple and efficient. "The result, first" can summarize our collaboration

Overall, as a Senior Director of a manufacturing plant, I would not hesitate to work with this team again to ensure the success of a new building or an optimization of existing ones. I know with all confidence that they will do an outstanding job and become an asset for their customers

Should you desire further information, please contact me

Yours sincerely

Max BOYSSET
